

Cancer Research UK Selects Spinnaker Support for Siebel CRM Support

Immediate savings to be redirected for increased funding of life-saving cancer research

Bourne End, United Kingdom, June 9, 2017 – Spinnaker Support, the fastest growing provider of third-party maintenance and managed services for Oracle and SAP applications, has been chosen by Cancer Research UK for third-party [Siebel CRM](#) support. Cancer Research UK is one of the world’s leading cancer charities dedicated to saving lives through research. The switch to Spinnaker Support from Oracle support significantly reduces annual maintenance fees and ensures best-in-class service from a highly knowledgeable and responsive support team.

"We continuously seek innovative ways to keep our costs down in order to free up more funding for research projects that will discover ways to prevent, diagnose, and treat cancer," stated David Minton, Head of Business Applications Cancer Research UK. "We believe that the transition from Oracle Support to Spinnaker Support for our Siebel CRM products will result in high quality service at a substantially lower price point."

"It is a great pleasure to support Cancer Research UK’s Siebel applications," stated Nigel Pullan, Vice President of EMEA and APAC for Spinnaker Support. "We will focus on keeping their Siebel system available and adaptable so they can focus on ways to beat cancer."

About Cancer Research UK

Cancer Research UK runs Siebel CRM version 8.1.1.14, leveraging Siebel Sales, Marketing, Siebel Analytics, Mobile, Dynamic Catalog, Siebel Contact Center, and other modules.

- Cancer Research UK’s pioneering work into prevention, diagnosis and treatment of cancer has helped save millions of lives
- Cancer Research UK receives no government funding for their life-saving research. Every step it makes towards beating cancer relies on donations
- Cancer Research UK supports research into all aspects of cancer through the work of over 4,000 scientists, doctors and nurses.
- Cancer Research UK’s ambition is to accelerate cancer survival rates by 2034 to 3 in 4 people for at least 10 years, up from 2 in 4 today.
